

# Infrastructure Updates

Supporting personal health and safety, several individuals served by Portal, inc. remained at home during a portion of 2021. This reduced attendance, along with the gifts of grants and donations received, gave us the opportunity to complete necessary repairs and updates to the water and sewer infrastructures of our building.

A significant grant from the **Greater Milwaukee Foundation** allowed for the replacement of deteriorating and a collapsing main sewer line. With additional financial gifts, the installation of a hot water recirculation system, a commercial water conditioning system, and a new wash sink were added.

Additionally, the floors of several high-traffic areas were updated, improving ongoing cleanliness and maintenance efficiencies. Portal, inc. is grateful for all financial support for these projects including:

- The Greater Milwaukee Foundation
- K&B Flooring
- Badger Meter

## Working Together

### Feed My Starving Children: 12 Years of Service

Since 2010, Portal, inc. has partnered with St. John's XXIII Catholic Church of Port Washington and United Methodist Church of Whitefish Bay, hosting Feed My Starving Children packing events.

Over this decade-plus partnership, volunteers within our building have packed more than 1.25 million meals. The food packed in November 2021 supported children in Guatemala.

We are honored to be part of such a world-wide, beneficial, and energizing experience!

### Sun Quilts: Thankful to be Together Again

Early in 2021, 30 individuals involved with our Day Services program made two sun quilts.

The suns were individually created using wax crayons drawn onto sand paper as the canvas, then heat transferred on to fabric squares.

Both quilts received 1st Place Blue Ribbons at the Ozaukee County Fair! These quilts celebrate coming back together with hope for a bright future.

# Thank You!

Thank you to the following businesses and organizations who generously supported Portal, inc. with discounts, promotional gifts, tasty treats, program opportunities, volunteers, needed supplies, and/or exceptional service throughout the pandemic.
